

DESCRIPTION

Project objective:

Build a responsive website for a restaurant where users can read the details of the restaurant.'

Background of the problem statement:

You are a web developer at a service-based web development company called Kite Technologies. The company has been approached by a client who wants to build a website for their restaurant named Ming's Diner. The website should provide the users a brief overview of the restaurant and its bestsellers, its address, as well as an option to contact the restaurant. During sprint planning, you agree to lead this project and develop the website.

The tasks you are responsible for:

- Building the website using HTML
- Adding Bootstrap to the website
- Adding a landing page, a navbar, a CTA button, a grid, and a footer
- Adding a contact form for users to contact the restaurant
- Pushing the code to the git repository
